

T-EG-xxxx-xxxx Sensor

EG4100 Series Current Transformer Sensor

Split-core CTs from J&D Sensing offer a well constructed hinged body and are accurate to +/-1% from 1%-100% of their stated current rating. The small interval for physical size options (10mm/0.39", 24mm/0.94", and 36mm/1.42") allow for a flexible installation. Each CT size has a hinge and clipping mechanism, making it easy to close the CT in tight situations.

Supported Measurements:

AC Current and Amps (A)

Key Advantages:

- Multiple current ratings
- Small size, light weight
- Simple installation
- Overvoltage protection circuit
- Pin-hinged at pivot point
