	Global Max-Connect Plan (incl. US)	SP-808	1 minute	10 minutes	Unlimited	Yes	\$300.00/year

These service plans provide one (1) year of cellular data transmission and HOBOLink service for RX3003 (Cellular 3G) units and HOBOLink only plans for RX3001/RX3002 (Ethernet and WiFi) units. The plans start on the day the RX3000 is manufactured. One extra week is included in the first year of service to allow for time between when the unit is manufactured and received by the user.

Cellular service plans are limited to the parameters shown above. More frequent alarms, adding statistics and increasing the connection rate will impact the type of plan you should choose for your deployment. If the data used in particular month gets close to the limit, a warning will be sent. If the data left gets too low, HOBOLink will automatically turn off its connection service. Normal operation will resume the following month. If selecting the SP-600, please be sure to carefully review the SIM requirements and installation instructions here: <http://www.onsetcomp.com/manuals/19051-installing-sim-rx3003-station>.

Countries covered by the Global cellular plans are shown on page 2. Onset reserves the right to update these data plans and pricing at any time.

RX3000 Cellular Data Plan Global Coverage

(for SP-806 and SP-808 only)

Global Countries Covered

Afghanistan
Albania
Algeria
