

CX5001

## InTemp Wi-Fi/Ethernet IoT Gateway

### Bluetooth logger connection for IoT cloud automation services

The CX5001 Gateway automatically downloads data from in-range InTemp CX loggers and uploads it to the InTempConnect cloud platform via a Wi-Fi or Ethernet connection, which enables automatic text/email alarm notifications, automated compliance reporting, and remote monitoring capabilities.

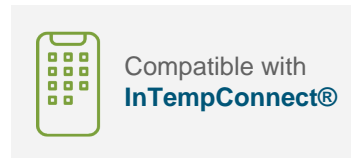

#### Important Information

**Requires a CX Gateway Annual Service Plan (SP-CXGTW): \$50 per Gateway/per year, included in cart.**

#### Discounting:

- 1-5 Gateways: \$50 each
- 6-15 Gateways: \$45 each
- 16+ Gateways: \$40 each

Also requires an InTempConnect cloud account, at least one CX data logger, a compatible mobile device, and the InTemp mobile app to configure the CX5001.

## Features

- Automates data download and logger restart for all InTemp CX data loggers
- Notifies you of temperature excursions in real time
- Includes Power over Ethernet capability
- Offers enterprise and personal Wi-Fi connection options
- Decreases risk of loss
- Reduces time spent on data download and compliance
